

A Cut Above

PCS are proud agents for Bystronic-glass. Bystronic is the global supplier of complete solutions for the economical, application-engineered fabrication of architectural and automotive glass. Customers rely on:

- 🔧 Intelligent machine concept;
- 🔧 Modular construction;
- 🔧 Compact system concept;
- 🔧 Individual design;
- 🔧 Integrated manufacturing processes;
- 🔧 Variable expansion possibilities.

Cutting

Bystronic-glass guarantee efficiency on the highest level.

Product ranges include:

- 🔧 Vertical and horizontal cutting systems;
- 🔧 Arrising, grinding and washing systems;
- 🔧 Fully automated processing lines.
- 🔧 Manual, electric and pneumatic driven suction frames and glass manipulators.

PCS and its partnership with Bystronic-glass not only provide you with the best lifting and handling solutions, but with tailor made overall solutions in the pre processing to finishing.
