

## Showing our Mettle

Pro Crane Services (PCS) provide solutions adapted to our clients' exact requirements.

Our heavy duty steel cranes are built from components manufactured specifically for this arduous and demanding environment.

The steel industry's cranes are designed for:

- 🔧 Extreme temperatures;
- 🔧 High travel speeds;
- 🔧 Continuous operations.

Steel industry crane requirements:

- 🔧 Coil handling;
- 🔧 Dual hoisting;
- 🔧 Versatility.

PCS has developed the technology the industry needs for its most rigorous performance requirements being; automation, frequent operating cycles, high speeds and difficult environments.

We put emphasis on; safety, reliability, easy maintenance, high rate of availability, smooth controls and many other optional features.
